Brief Introduction

■ TH2819A is an updated product of TH2819 LCR meter. With high accuracy, wide measurement range, 6-digit resolution, test frequency up to 200KHz with the step of 0.01Hz, signal level from 5mV to 2V and DC internal bias voltage, the meter can be widely used for quality control on production line, incoming inspection, and high-accuracy measurement in lab. And perfect HANDLER interface, RS232C interface and GPIB interface make it easy to build an automatic component test system, communicate with the computer and record the test results.
