MD-50 Smart Mobile Phone & Ipad Microphone

The MD-50 is a hyper-cardioid condenser microphone is designed for video production and news reporting. Is suited for both room and outdoor use. MD-50 features excellent sound isolation from the sides and rear of microphone. Durable enough to withstand the rigors of an ENG life, the warm and clear sound for the MD-50 microphone is an excellent choice for broadcasting and enables the iPhone to act as a genuine reporter's tool. The MD-50 can also be used in conference room as well as an excellent choice for recording voice and live music.
