EI-A05M Micro Clamp

This smaller version of the popular impact Micro Clamp can be securely mounted on any tube from 12mm/0.5in rods to 45mm/1.8in. The clamp is made of aluminum alloy and the metal make it sturdier and stronger.

SPECIFICATIONS

	Payload	4.0kg / 8.8lbs
	Net Weight	100g / 0.2bs

FEATURES

1/4" screw

3/8" screw

With 1/4"-20 and 3/8"-16 threaded holed on the small clamp, you are able to connect.

Ergonomic rigid lockup takes just a quick twist of one control.

High quality aluminum, very sturdy.

We use the better rubber for the jaw of the super clamp.

Jaw opens from 45mm to 12mm.

Usage scenario.
